About

We need your help NOW to send more med students to FMMA's annual conference in August.

Your support *today* will make all the difference to a future doctor *tomorrow*.

Greetings!

Why are we sending this urgent call for scholarship donations for med students to attend a free market healthcare conference?

Many medical students and doctors are losing hope about practicing medicine in today's over-regulated environment. Doctors are leaving practice, going to work for medical corporations or hospitals, or *worse--committing suicide*. Many medical students are having second thoughts about continuing in medicine at all.

The FMMA Annual Conference turns this sad state of affairs around for many of them!

The Free Market Medical Association (FMMA) has been a pioneer in saving doctors and medical students by educating them about Direct Primary Care and other forms of free market healthcare options, ***returning the practice of medicine to doctors and their patients, where it belongs.***

And now, FMMA is helping BRI raise money to send more students to this year's conference with this short video.

Please watch this short video and donate generously. Spread the video link with friends, family and colleagues. *Help us send more deserving students to the 2017 FMMA conference!*

"Throughout the entire weekend, I could not help but notice the palpable excitement that all these physicians shared as they discussed the potential for direct primary care's role in the future of medicine." ~Medical student, upon learning about direct primary care

Every contribution--no matter how small--helps us preserve and protect the patient-doctor relationship by educating our future doctors about free market medicine and free market healthcare.

Thank you for sharing the video and for doing what you can.

In partnership,

Beth Haynes, MD
Medical Director
