Linda Pan, Co-President/BRI Chapter The Ohio State University College of Medicine

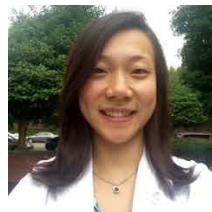

. . . went to FMMA . . .

**. . . and got insight & answers into how
free market healthcare helps the poor.**

Greetings!

October 8, 2015

We salute Linda Pan, a BRI Chapter Co-President, who was amongst 10 BRI Student Leaders to attend this summer's **Free Market Medicine's** (FMMA) Conference in Oklahoma City. She went there with a mission -- to get some insights and answers into how poor people are best served vis. healthcare.

We are proud of Linda who did the hard work of learning, seeking, discovering and discussing this important topic with others to find answers to issues that matter to her, instead of simply accepting, or worse - advancing -- ideas that are mere concepts, or lip service, to one or another "solution."

We at BRI salute those of you who are seekers for real solutions that stand the test of time.

In partnership,

Poverty as a determinant of health--Markets as the Cure

Dr. Beth Haynes, BRI Executive Director addresses how markets best serve the poor.

In keeping with the theme of this newsletter, we invite you to watch the video of Dr. Haynes' talk, held at Saint Louis University School of Medicine, 10/02/2015.

WATCH THE VIDEO

OUR WORK GETS DONE BECAUSE OF YOU.

Thank you for giving of your time, talent and treasure to advance the cause of healthcare liberty. BRI could not do its important work to promote solutions that protect the doctor-patient relationship as the primary means of delivering quality medical care without your generous donations and memberships. Thank you.
